New Speaker Competition *Redwood Two Conference Room*

7:30 **Sharik Burgess-Stride, Graduate Mechanical Engineer, Index Engineering**
"Rating Lifting Equipment & When is it PECPR"

As a consulting mechanical engineer, there are two sentences we often hear from our clients in the pulp and paper industry regarding lifting equipment, "What is this rated for?" and "Can we increase the capacity to...". This presentation aims to teach people the strategies used to increase the Working Load Limit (WLL) of lifting equipment and discuss common points of failure. Sharik will also touch on when lifting equipment falls under the "Pressure Equipment, Cranes and Passenger Ropeways" regulations.

8:00 **Ralph Rolly Gonzales, Postdoctoral Researcher, Scion**
"Waste to Treasure: Valorisation of Agricultural Residues"

Using grape marc as model lignocellulosic biomass, it is aimed to efficiently and cost-effectively extract and purify high-value biochemicals, formulate bioactive compounds, and prepare grape marc-based paper for several applications.

8:30 **James Flett, Plant Engineer, Oji Fibre Solutions Kinleith Mill**
"No2 Mill Cost Reduction Projects"
