Issue 2 / Apr - Jun 2026

16

MARKETS
**ASIA CENTRAL TO GROWTH
IN \$67.2 BILLION GLOBAL
NONWOVENS INDUSTRY**

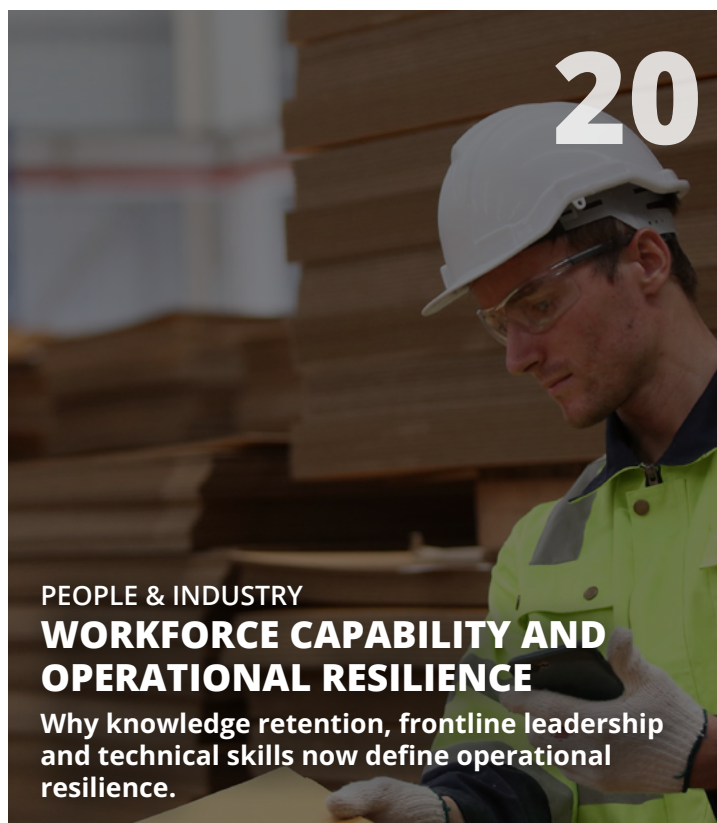

How China, India and shifting demand are reshaping the global nonwovens market.

28

PACKAGING & SUSTAINABILITY
**CAN WE REDUCE OUR
DEPENDENCE ON EXPANDED
POLYSTYRENE?**

Scion research tests cellulose foam as a scalable alternative to EPS packaging.

20

PEOPLE & INDUSTRY
**WORKFORCE CAPABILITY AND
OPERATIONAL RESILIENCE**

Why knowledge retention, frontline leadership and technical skills now define operational resilience.

34

ENERGY TRANSITION
**TURN ENERGY INTO A
COMPETITIVE ADVANTAGE
WHILST ACTING SUSTAINABLY**

Four practical ways manufacturers can reduce cost, risk and carbon through smarter energy use.

37

ENERGY TRANSITION
**ENERGY FROM (WASTE) BIOMASS
DISAPPEARS FURTHER BEYOND THE
HORIZON**

Peter Minten revisits New Zealand's missed chance to turn woody waste into energy security.

42

TECHNOLOGY & INNOVATION

**RAPID WOOD CHARACTERISATION
USING DART-MS**

How rapid chemical fingerprinting could transform wood, pulp and packaging analysis.

48

TECHNOLOGY & INNOVATION

**REVISITING CORRUGATED BOARD
HARDNESS**

Modern force-displacement testing reveals crushing damage traditional methods can miss.

50

TECHNOLOGY & INNOVATION

**HOW TO OPTIMISE PAPER MACHINE
PERFORMANCES BY UPGRADING
YOUR WIRE SECTION**

Smarter wire-section control improves drainage, quality, flexibility and energy efficiency.

54

TECHNOLOGY & INNOVATION

**CUTTING COSTS, SLASHING WASTE,
AND SPEEDING UP PRODUCTION**

Advanced optimisation helps Fortum balance electric boilers, heat storage and reserve markets.

EDITORIAL**Beyond the Technology**

Adele Elice-Invaso, Guest Editor

3

ACROSS THE DESK

Industry news, design and new tech

6

INTERVIEWS**What's Holding Industrial Transformation Back?**

ABB's Lweendo Ahnlund explains why capability and culture-not technology-hold transformation back.

18

Beyond the Safety Margin

Russell Allan on better measurement, lost industry memory and papermaking's next leap.

24

**Engineering Nature: Hyphera's Bio-Derived
Alternative to Synthetic Adhesives**

Hyphera is engineering bio-derived chemistry to replace synthetic binders without compromising performance.

30

Banking Heat for Industry's Next Transition

Antora Energy makes the case for thermal storage as the key to economical industrial electrification.

40

**A New Opportunity to Revive New Zealand's
Pulp and Paper Industrial Basis**

How foam forming could turn idle mill capacity into new fibre-based products.

44
